### **Terrazzo Lumineo**

Fluorescent aggregates are integrated in classic terrazzo flooring creating a seamless surface. The stylish terrazzo is combined with spectacular light effects when illuminated with blacklights. The aggregates can be evenly distributed over the surface or grouped in patterns like circles, lines or arrows. Low maintenance of terrazzo also warrants outdoor application. This material is developed together with S. Lövenstein BV ([www.verborgenveiligheid.nl](http://www.verborgenveiligheid.nl)).
